## WORK EXPERIENCE

<b>Georgia State University, Atlanta</b> <i>Graduate Teaching Assistant</i> <ul style="list-style-type: none"><li>Managed the grading of assignments and conducted lab sessions for cohorts of 50 undergraduate CS students for various courses. Clarified students' doubts about data structures in java &amp; python.</li></ul>	<i>Jan 2022 - May 2023</i>
<b>ZS Associates, India</b> <i>Sr. Associate Consultant</i> <ul style="list-style-type: none"><li>Led development of database search engine MVP end-to-end using Figma, Angular, and Apollo GraphQL, increasing query speed for varied data sources by 45%.</li><li>Orchestrated frontend development of a design intelligence platform using React facilitating leadership to gain valuable insights into clinical trials faster by 35%.</li><li>Facilitated knowledge transfer sessions for client teams, successfully onboarding client developers to the project and ensuring seamless collaboration between teams.</li><li>Configured CI/CD pipelines on GitLab, and bitbucket for code reviews, unit/integration/e2e testing, and deployments.</li><li>Formulated and executed comprehensive learning modules to mentor and onboard junior team members and interns within a 3-month timeline.</li></ul>	<i>Dec 2020 - Dec 2021</i>
<b>ZS Associates, India</b> <i>Associate / Software Developer</i> <ul style="list-style-type: none"><li>Integrated single sign-on authentication and authorization feature in a data-sensitive web application for a UK-based pharma client, using Python, Angular, and OKTA.</li><li>Implemented various visualizations – maps, timeline charts, custom bar charts – to effectively communicate insights and trends from clinical trials to leadership generating revenue of \$2.4M.</li><li>Developed REST APIs with Flask and PostgreSQL to display learning insights, improving staffing efficiency by 15%.</li><li>Pioneered angular packages for table and dropdown components, confiding business requirements and boosting development activity by 20%.</li><li>Coordinated effectively in cross-functional teams to ensure timely delivery of the applications.</li></ul>	<i>Mar 2018 - Dec 2020</i>
<b>Logiquad Solutions, India</b> <i>Jr. Software Developer</i> <ul style="list-style-type: none"><li>Contributed to publicly available websites - <a href="#">Trade Show News Network</a>, <a href="#">LawhelpCA</a> - Drupal CMS.</li><li>Revamped website navigation by developing custom breadcrumbs module using JavaScript and PHP for intricate paths.</li></ul>	<i>Jun 2017 - Mar 2018</i>

## PROJECTS

### Task Manager – MEAN stack ([link](#))

- Developed a task manager angular app with a login feature using JWT to add, delete, edit, and manage tasks and task lists. Deployed application on Azure WebApp using GitHub CI/CD pipeline workflow.

### Resume Builder – ReactJS, Bootstrap ([link](#))

- Built a react web application that takes user details in the form and creates a resume referencing a standard template.

### Weather App – ReactJS ([link](#))

- Implemented a SPA using react hooks and integrated it with Weather API to search for a new city and display current, hourly, and daily forecast.
